

Hope Preschool - Philosophy Review

We would like you to contribute your thoughts so we can better plan for children's learning at Hope Preschool. From previous feedback we have identified 6 areas of learning that are valued at Hope Preschool. Under each one can you please write what is important for your family/whānau.

For example:

Problem solving with exploration and creativity

I would like my child to have long periods of uninterrupted play and to be able to play outside as much as possible so they can work things out for themselves.

Valued Learning at Hope Preschool

Over time and with guidance children at Hope Preschool will become increasingly capable of:

Being independent

Caring for themselves and others

Playing with and alongside others

Contributing and communicating their thoughts, feelings and ideas

Problem solving through exploration and creativity

Knowing they are loved and valued by God

Thank you for taking time to do this. Please place in the basket at preschool by the end of March
